

any crime. They release people that are admitted kidnappers, rapist, drug dealers and murderers everyday without blinking an eye. They know MOVE is none of those things but when it comes to innocent MOVE people, people that officials know are innocent, they refuse to release our family. This year 2009, marks 31 years that our family has been unjustly imprisoned for the false accusation of murder by the very people who murdered, buried to death MOVE family members, including babies. Now explain to us how these rotten, twisted, contradiction-filled criminals can justify keeping our family in prison. MOVE have been telling people for over 35 years now that this system is rotten, it's twisted and ain't to be accepted by nobody because to accept it is to validate our own suffering. MOVE ain't never gonna accept the injustice, oppression, exploitation of this degenerate system. We've been fighting it all these years and we ain't never gonna stop fighting it, in jail or out. Thanks to MOVE'S founder, JOHN AFRICA, we understand clearly that walking out of those buildings called prison don't mean that you're free. As long as this brutal, sadistic system exists, ain't nobody free, ain't nobody safe. We're encouraging people to strongly and consistently confront the parole board about the continued imprisonment of innocent MOVE family members but also about their illegal and unjust policies that effects everybody that comes before them and results in their prolonged imprisonment. JOHN AFRICA has taught MOVE people that consistency is strength so we have to keep the pressure on parole board officials even after they make their so-called decisions. We can't rest as long as our family members are unjustly imprisoned so we can't let them rest as long as our family members are unjustly imprisoned. Contact info for the parole board is attached so please make use of it. Also attached is the contact info for each of The MOVE 9 as well as Mumia. Please make use of that too. Oppressors have historically maintained their position because people have allowed them to. People have been tricked by a concept invented by the enemy called legality: a concept created to keep people oppressed by causing people to believe that they have no right to defend themselves from systematic oppression, that they are criminal if they protect themselves from oppression. JOHN AFRICA freed MOVE people from that confusion and gave us the understanding that protecting yourself is not criminal, it's instinctive it's THE Law. In 1776 the so called "founding fathers" defended themselves against an oppressive government and they are called "freedom fighters, heroes". Protect yourself from the system with the understanding that it's your natural right, your obligation (as even stated in their Declaration Of Independence) and the most effective way to do this is to really understand that this system and anybody that defends it is an enemy to life. This is the understanding JOHN AFRICA has given MOVE people and MOVE people are giving to others, through words and example. Don't let your enemy disarm you by destroying your instinct to defend yourself against him. Be strong and never give in to this menace, this monster that we know as the system because that's what those who push this system are counting on.

Starting this Wednesday and

every Wednesday til the parole

hearings are complete we are

asking people to call Chairperson

Catherine C. McVey at the Penn-

sylvania Board of Probation and

Parole at (717) 787-5699 (call be-

fore 3pm PST) and demand parole

for MOVE political prisoners!

## Sanfransisco Sex Workers go IWW By Goose

Sex workers in San Francisco know how to organize. When the clinic they work at started to fire uppity workers they strategized how to stop the bosses from using an excuse of budget cuts to get rid of long time staff.

A clinic for sex workers is a significant element of the sex worker community. Keeping the clinic going is important. So is fighting violations of workers rights. Meetings to decide strategies are ongoing. Clinic management is aware the workers have been talking with the Industrial Workers of the World (IWW) about a union at the clinic.

For now the IWW continues to make connections with the wider sex worker community in SF. Next week fired workers have planned a direct action at the clinic. There is also a list of demands. Clinic management will be given one chance to meet these demands. If not, the workers will go public with their demands including unfair labor practices.

Since I wrote these words several weeks ago I have gained a better understanding of how sex workers in the Bay Area approach their issues. I have a better grip on what sex workers think of unions.

I now believe that union is not the first thing on clinic workers minds, although their desire to be organized is strong.

Organizing amongst sex workers in particular is possibly out side the realm of the IWW at this time. We are better suited to form alliances and networks with workers whose personal relationships with clients, bosses, cops and the community are complex and in many ways out weigh the significance of a union.

The IWW is well suited to organize in the service sector amongst workers that big unions don't care about. On the margins of service industry jobs the organizing challenge is daunting and perhaps not worth bothering with. The connections we make, however, are well worth the time and effort.
